

# Motivate and upskill your team using government funding

Since 1990, *Gow Learning* has been helping organisations put the human resource puzzle together by providing training that fits their needs.

As a non-profit nationally recognised Registered Training Organisation, *Gow Learning* is able to access government funds to achieve this.

## Nationally Recognised Qualifications

Key training and assessment areas include:

- ⊙ Sales
- ⊙ Leadership
- ⊙ Retail
- ⊙ Business
- ⊙ Manufacturing
- ⊙ Warehouse and Logistics
- ⊙ Customer Service

You may be eligible for up to **\$4,000** in government incentives per employee!

Already have a training system in place? No problems, *Gow Learning* can partner with you and provide assessment options that complement your existing training. You can give your people a nationally recognised *Gow Learning* qualification with your logo on the certificate or diploma.

## Motivational Programs

The *Inside Out Program* is a powerful tool to help employees realign their thinking, become more resilient and optimistic about their future. Drawing on positive psychology principles, the *Inside Out Program* aims to be more productive and more focussed on producing positive outcomes for your organisation.

You have the opportunity of coupling this program with a national qualification, which makes it eligible for government funding.

## Employer Benefits

- Upskill your staff in an area of your choice
- Motivate your staff to perform
- You may be eligible for up to **\$4,000 in government incentives** per employee
- Staff do not have to leave the workplace to complete the qualification
- Available for both new and existing employees
- Attract the best staff by offering them nationally recognised qualifications

## Employee Benefits

- Nationally recognised qualification
- Completed 'in your space at your pace'
- Competency based so the emphasis is on demonstrating skills in the workplace
- Allocated Gow Assessor to assist you throughout the qualification
